Cal Poly Humboldt is seeking highly trained security personnel. The security company should provide training that, at a minimum, includes: access and key control, CPR/First Aid, parking lot security, patrol and observation techniques, reporting via telephone and/or radio, customer service, and emergency management. All potential security personnel must be certified by the California Bureau of Security and Investigative Services. The University requires that private security personnel serve as Campus Security Authorities pursuant to the Clery Act. Security personnel shall review, understand, and acknowledge basic responsibilities under the Clery Act as outlined here.

All security personnel shall be required to clear a Cal Poly Police Department civilian background check. Upon successful clearance, security personnel would be invited to use the Cal Poly Humboldt Police Department as a base of operations for compilation of daily paperwork, restroom stops, lunches and breaks, etc. The point of contact for suspicious circumstances would be the University Police Department dispatch center. The on-duty UPD supervisor will provide day-to-day direction and support to security personnel. Duty hours would generally run from 2300 hours through 0700, seven days a week, though security for special events may also occur.
